

OVERVIEW

The European

DIGITAL INNOVATION HUB
in Transilvania

The European Digital Innovation Hub in Transilvania works strategically to catalyze regional innovation potential and capabilities. On the other hand, it acts as provider of competences, know-how, innovation programs, support for startups, SMEs and public authorities.

Digital Transformation

EDIH Transilvania sets frameworks for digital transformation in both businesses and public sectors.

Recognition

The first operational DIH in Romania, recognized in 2019 as “Fully Operational DIH” by the European Commission.

Engaging

Innovative mix between technologies, skills, systemic approach, operational models, it engages relevant regional stakeholders

- Working on concrete needs and allowing time for the consolidation of the ecosystem „walking the talk”
- Focusing on trust-dialogue-transparency and results, consortia –based work , international partnerships and cooperation
- A future-oriented perspective

RODIH

RODIH is the representative association of DIHs in Romania, acting as a catalyst for collaborative innovation and a platform for a common political agenda between regional DIHs in the country in relation to local, regional, national and European public bodies.

The mission of RODIH: to centralize the resources put on the table by the regional DIHs, to maximize their value proposition through vision and alignment to common EU initiatives, to facilitate access to additional funding and the correlation of collaborative resources and to define a common ground for EDIHs.

The vision of RODIH: a joint effort of evolution and supporting a common voice is the most effective way to promote the competence and impact of Romanian IHLs.
