

# EDIH4IAE.LT role in Supporting Digital Innovation in Lithuania

Romualdas Lapickis

Lithuanian Innovation Centre

2023-10-24

Coordinator:  
**Lithuanian Innovation Centre**

**EDIH**  
partners in  
Lithuania

Coordinator:  
**Sunrise Valley Science  
and Technologies Park**

Coordinator:  
**Kaunas University of Technology**

**Mission** – Increase the efficiency level in **industry, agri-food and energy sectors** of digital transformation giving priority to (i) business and public entities operating in the region of western and central Lithuania and (ii) the implementation of main digital technologies (**high performance computers, artificial intelligent and cyber security**).

**Goals:**

- increase the demand of digital technologies;
- develop digital skills required for digital transformation;
- reduce the risk of investment in digital technologies, helping companies to attract additional financial resources;
- with the help of digital technologies and business models increase the integration of Lithuanian economic entities into the EU and international value chains creation.

**We help companies to avoid the trap of mediocre competition**

# EDIH4IAE.LT partners

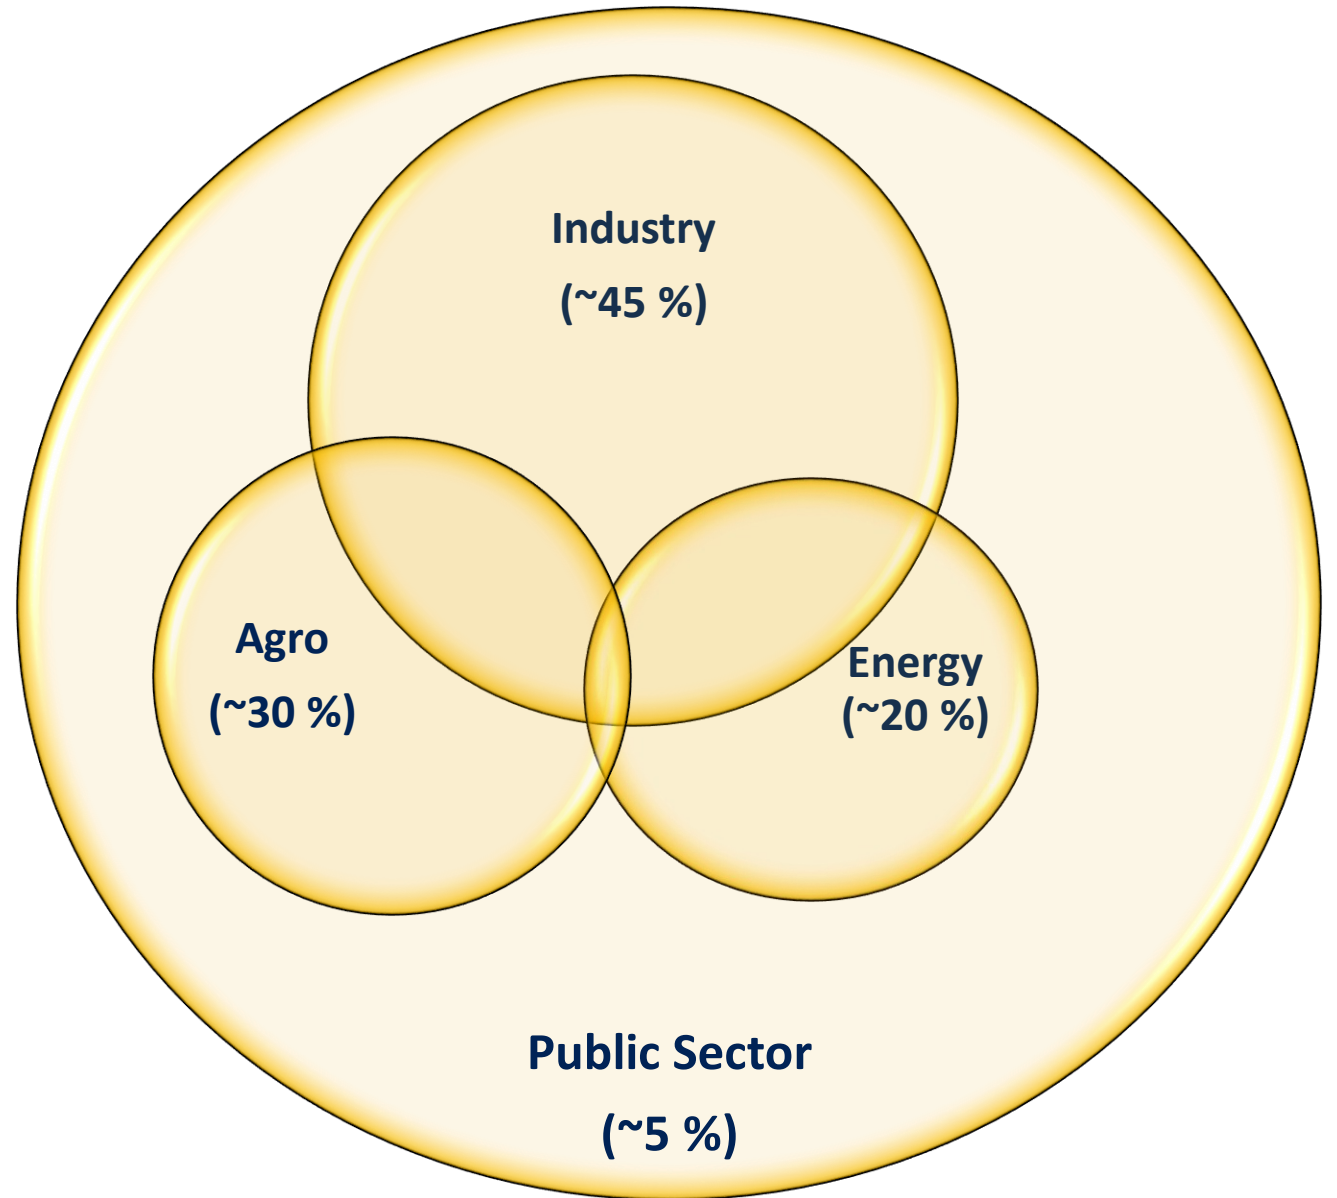

# Digital technologies

- Robotics
- Internet of Things (IoT)
- Additive manufacturing
- Artificial intelligence
- Augmented reality
- Digitization of manufacturing
- Process management systems
- Automatization technologies
- Digitalization of workplace
