# WHO WE ARE

EDIH VILNIUS is a consortium of 10 organizations, major innovation ecosystem players in Vilnius region and beyond, that joined its forces to increase digital maturity levels of business and public entities. We believe that extensive use of digital technologies will increase the competitiveness of the Vilnius region. With our expertise and infrastructure, we can achieve significant changes in the market.

EDIH Vilnius owns:

- » CS laboratory
- » Data management, digitisation and automation solutions laboratory
- » AI technology laboratory
- » HPC laboratory
- » 50+ experts of digital technologies

# CONSORTIUM

# MISSION

In the region of Vilnius, the main goal of EDIH VILNIUS is to increase the productivity of SMEs and public sector through injected automation, smart city and smart health technologies. EDIH Vilnius will support small and medium sized enterprises on their journey to become more digitalized, and, consequently, competitive and resilient.

The activities carried out by the EDIH VILNIUS will provide an opportunity for Lithuanian companies and the public sector to implement the most modern technological solutions, increase efficiency indicators, and produce high value-added products.
