REPUBLIC OF SLOVENIA
MINISTRY OF DIGITAL TRANSFORMATION

European Digital Innovation Hubs help businesses, local communities, government and individuals to be more competitive by using digital technologies in their work processes.

Ukraine can harness the power of the European Digital Innovation Hubs to pave the way for a brighter future:

- **opportunity to bridge the skills gap;**
 - **offer funding, mentorship, and connections to help your startups thrive in the digital landscape;**
 - **collaboration with European counterparts.**

Ukraine's participation in the EDIHs is a two-way street:

by engaging in this partnership, Ukraine can contribute to the growth and development of the digital ecosystem in Europe.

**European Digital Innovation
Hub is not just a concept; it's a
path to prosperity and a better
future.**

**By embracing digital innovation,
Ukraine sends a powerful
message to the world.**
